  - Guards inattentive

- Too many athletes “playing” and interfering with others competing.

# CUTTING OPEN WATER MEET IS NOT AN OPTION

## Proposal to the Southern Zone Age group Meet Committee

### Proposal:

Add the 50, 100 and 200 free for disability swimmers in the Southern Zone Age group Championship Meet.

### Goal:

Create a more complete experience for our disability swimmers.

### Rationale:

We currently permit 6 disability swimmers from each LSC to be entered in addition to the roster of 48 able body swimmers. However, once at the meet, the disability swimmers are functionally exhibition athletes as they are not in a position to contribute to team point totals. Adding three disability scoring events would allow them to contribute to final team standing in a meaningful way and encourage coaches to recruit disability swimmers to the team.

### Implementation:

- Maintain the current roster allotment of 48 plus 3 male and 3 female disability swimmers.
- Create four categories of disabilities:
  - Visually Impaired
  - Hearing Impaired
  - Cognitively Impaired
  - Physically Impaired
- Each swimmer wishing to enter the disability events would have to have a classifiable disability that would fall into at least one of the four categories.
- If a swimmer had more than one category of disability, they would then choose which of the categories they would like to compete in for the duration of the meet.
- Each disability swimmer would enter the conventional 50, 100, or 200 free in prelims for their age group and use the results for seeding purposes for the disability timed final events.\*\* All disabled swimmers would be swimming at finals.
- Swim the 200 Free Wednesday night, 100 Free on Friday night and the 50 Free on Saturday night all as timed final events.
- Swim each event as coed and all age groups.
- Score each gender and category separately.
- Allow disability swimmers to enter six total events with any number of those being the disability events.
